- **Ems Valley Community Transport** is a voluntary service available to those patients in and around Westbourne and Emsworth who are not physically able to use public transport because of mobility problems. Once registered on the scheme, residents can use the service to attend GP or any other appointments. In most cases the driver will wait for people and take them home after the appointment. There is a one off membership fee of £10 and then donations towards milage. This service is more for routine pre-planned appointments as usually a week's notice is required to organise transport.

It is easy to register by calling the service and one of their friendly Home Visitors will arrange to come and visit to explain how the scheme works.

If you would like to find out more, please phone **07481 179203** or visit <https://evctcars.org>
